Science, Technology & Innovation (STI) Policies for Sustainable Development

The *Asia-Pacific Research and Training Network on STI Policy* is a platform to share findings of academic research and their policy implications, reflect on current science, technology and innovation (STI) policy issues, and support research to inform STI policies in the Asia-Pacific region.

What is ARTNET on STI Policy?

Asia-Pacific Research and Training Network on Science, Technology and Innovation Policy

A platform to:

- **Share** findings of academic research and their **policy implications**
- **Reflect** on current science, technology and innovation (STI) policy issues
- Support **research** to inform STI policies in the Asia-Pacific region

Focus areas

Inclusive Technology & Innovation

- Ensuring STI policies are inclusive and support national development goals and the 2030 Agenda.

Frontier Technologies

- Ensuring technological breakthroughs work for the betterment of the economy, society and the environment.

Social Enterprises & Impact Investment

- Harnessing social enterprises and impact investment to generate further economic and social outcomes and address environmental concerns.

Technology, Trade & Investment

- Leveraging global trade and foreign direct investment to accelerate the spread of innovation and technology.

Technology Transfer

- Enabling the sharing of knowledge and technology across organizations and borders

Founding members

SCIENCE AND
TECHNOLOGY
INSTITUTE

Science and Technology Policy Institute (STEPI)

- Non-profit organization devoted to research and development of S&T policy and policy alternatives.
- STEPI strives to become a global think tank in the area of science and technology policy research.

United Nations Economic and Social Commission for Asia and the Pacific (ESCAP)

- Supports the network
- Connects researchers and policy making communities– help disseminate research findings, identify policy issues that require research

National Science Technology and Innovation Policy Office, Thailand

- Formulates strategic policies and frameworks for STI in Thailand
- Facilitates academic, research and development collaboration among government agencies, academic institutes, research organizations and industry within and outside Thailand

Membership

- **Core partners**

Intergovernmental & national institutions Provide significant and regular support (financial contributions, expertise and substantive inputs)

- **Institutional members**

National-level research and academic institutions involved in science, technology and innovation policy research and located in ESCAP member countries.

- **Associate partners**

International or regional institutions who collaborate with the Network and its Secretariat on an ad-hoc basis.

- **Advisors**

World-wide experts in specific knowledge areas. Provide guidance on their respective knowledge area, contribute to the discussions and peer review papers.

Oct

Launch of the Asia-Pacific Network on Science, Technology and Innovation Policy

📅 31 October 2018 👤 ESCAP, STEPI

Innovation, along with scientific breakthroughs and technological advancements, are needed to meet the ambitions of the 2030 Agenda for Sustainable Development. Asia and the Pacific is home to some of the most dynamic, pioneering and innovative countries in the world but also to some of the most technologically deprived.
